"This project is a long process that have been started long time ago...but let's say, 27 years ago...when i decided to work as an artist, and made with this choice my profession, my own research, and my choice of living... i would like to thanks from the bottom of my heart many people that i have met in this long process...and that have been, inspiring, connecting, contributing to it , in a way...or in an other way..."

Philippe

Sound Technician: Miwa Hashimoto
